RE: **COVID-19 Race Resumption Plan**

Today AMRA was fortunate to join a meeting including the AMA, AMA Pro Racing, FELD (SX), MX Sports (Outdoors MX), and many AMA Regional MX and Off Road promoters in the U.S.

The subject was Race Resumption planning. The top members of our industry have come together to form the **“Safe to Race Task Force”**

The Task Force has created the best practices “Tool Kit” The (20) page “Tool Kit” was distributed to all parties in attendance. AMRA will distribute the “Tool Kit” to each AMRA club.

The mission of the Task Force was to provide guidelines and best practices with current health and safety standards for social distancing that will enable both MX Tracks and Off Road venues to resume limited operations.

The next AMRA event will not occur until September 2020, it’s likely the Tool Kit will evolve over the next few months. AMRA will ensure that the clubs have the most up to date information when it comes time to race planning.

Our next event will have a different feel, with some club personnel wearing face shields, limited group gatherings such as Riders Meetings and Post Race Podium Awards.

AMRA will continue to post information pertinent to our sport and series as the Off Road Racing community works thru the COVID-19 crisis.

Sincerely,

Bob Russell

AMRA - President
